

JOB TITLE

Senior Researcher.

JOB OVERVIEW

We are looking for an experienced researcher with a tracked record of publications in AI. The chosen candidate will play a key role in the research and innovation plans of the company, with an active agenda in natural language processing, computer vision and social robotics.

JOB LOCATION

The headquarters are located in Seville (Spain). Flexible working conditions.

RESPONSIBILITIES AND DUTIES

- Keep up to date on state-of-the-art AI techniques.
- Publish papers and/or patents.
- Coordinate the research activities with the company's product development.

MUST-HAVE QUALIFICATIONS

- PhD in AI with an engineering or mathematics background.
- Peer-reviewed papers in natural language processing, computer vision or social robotics. Pure machine learning/deep learning are also welcomed.
- Spoken and written English at professional level.
- Python and/or C++ experience.

BONUS QUALIFICATIONS

- Software development experience.
- Experience with ML frameworks.
- Experience with cloud infrastructures like AWS.
- Patents.
